Vikendica Key Portal je izrađena od standardnih brodskih kontejnera i smještena u prirodnom okruženju. Uz pomoć staklenih portala, struktura je ispunjena sunčevom svetlošću, koja služi kao primarni izvor svjetlosti, stvarajući kohezivnu i ambijentnu celinu. Iz unutrašnjosti, korisnik posmatra pejzaž kroz okvir, predstavljajući organsko umetničko delo. U prizemlju se nalaze dnevna soba, trpezarija i kuhinja sa izlazom na terasu koja ima bazen. Terasa služi kao pravo hedonističko utočište, sastavljena od prostora za opuštanje i obedovanje. Otvaranjem

PROJECT DESCRIPTION IN ENGLISH

Descrierea proiectului în engleză **A projekt leírása angol nyelven *Opis projekta na engleskom

The Key Portal weekend house is created from standard shipping containers and situated in a natural environment. With the aid of glass portals, the structure is infused with sunlight, which serves as the primary source of light, creating a cohesive and ambient whole. From the interior, the user views the landscape through the frame, representing an organic work of art. The ground floor accommodates the living room, dining area, and kitchen with access to a terrace featuring a positioned pool. The terrace serves as a true hedonistic retreat, comprising spaces for relaxation and dining. By opening the portals, a connection is established between the

kitchen, and the terrace. Additionally, the lower level includes a storage room and a guest toilet, in addition to the aforementioned rooms. The surface area of the ground floor measures 50m², while the terrace with the pool covers an area of 90m². Upstairs, there is a bedroom with a study room, walk-in closet, and bathroom (40m²). The predominant material throughout the entire structure is wood. Its appearance, warmth, and color create a comfortable and relaxing ambience. Clean lines, earthy tones, and soothing hues transform this structure into a pleasant and functional home.
